

## SPECIFICATIONS

Transmission Frequency 433.92 MHz  
Quantity 1  
Ring time 30 seconds  
Alarm sound intensity 110db (distance: 30cm)  
Supply voltage 6V (1.5V x 4 pcs AA Alkaline batteries)  
Power consumption 0.9W

Transmission Frequency 433.92 MHz  
Transmission Distance ca. 30m  
Quantity 2x maximum  
Supply voltage 3V (CR2032 Alkaline batteries)  
Power consumption 0.03W  
The total number coding 1000 000

Transmission Frequency 433.92 MHz  
Transmission Distance ca. 30m  
Quantity 2x maximum  
Ring time 10 seconds  
Alarm sound intensity 90db (distance: 30cm)  
Supply voltage 4.5V (1.5V x 3 pcs Ag13 Alkaline batteries)  
Power consumption 0.45W  
The total number coding 1000 000

Transmission Frequency 433.92 MHz  
Transmission Distance ca. 30m  
Quantity 2x maximum  
Sensing distance 0-10m  
Sensing angle 110°  
Alarm sound intensity 110db (distance: 30cm)  
Supply voltage 3V (1.5V x 2 pcs AAA Alkaline batteries)  
Power consumption 0.03W  
The total number coding 1000 000
